CS-102 Logical Organization of Computers . Aims There are two views of computer architecture. The traditional view, dating back to the IBM System/360 from the early 1960's, is that the architecture of a computer is the programmer-visible view of the machine, while its implementation is the province of the hardware designer.

Academic : Department of Computer Science : University of Pune

The course is an introduction to epistemological, methodological, and political aspects to the production of knowledge in contemporary times. The course will centre around two instruments: (1) A set of published papers and knowledge artefacts which will be analysed i.e. to function as models and (2) The design and execution of a dummy research project.
