Digg is the homepage of the internet, featuring the best articles, videos, and original content that the web is talking about right now.

Digg - What the Internet is talking about right now

We are living at the edge of a new time: Robotics and Artificial Intelligence will change the world! Automation in the form of Autonomous, Smart Machines and A.I. will impact the world in the next 50 years as much as the Internet, PCs and IT technology have changed it in the last half a century. Self-driving cars, autonomous drones and smart assistants like Siri, Cortana, Alexa or Google Home ...

Robotic & A.I. Governance

Horribly, the Sydney Morning Herald reports that the man, who is believed to be Australian-born, decided to live stream 17 minutes of the heinous attack via his GoPro for his friends to watch. Along with the video footage, he also has an 87-page "manifesto" explaining why he decided to carry out the attack, which includes plenty of anti-Muslim and anti-immigrant rhetoric.

New Zealand Mosque Shooter Live-Streamed Entire Attack

To reiterate, my motive for creating this website is to help authors, game designers, and programmers get the science correct in their creations (thus increasing the amount of the kind of science fiction I enjoy). The most striking examples are those novels whose authors I directly assisted. But there are a few creations I've run across that did get the science correct without any help from me.
