The "Intelligence Paradox," then, is that intelligence often overrides instinctive behavior to the detriment of intelligent individuals and their genes. One prime example of this is that more intelligent individuals tend to be liberal than less intelligent individuals.

The Intelligence Paradox: Why the Intelligent Choice Isn't ...

The Intelligence Paradox introduced me to the science of evolutionary psychology. Of course I knew that our ancestors spent a million years as hunter-gathers in Africa. I remember learning about the advent of cultivation of crops; how agriculture changed human society a short 10,000 years ago, when we transitioned from nomads to settlers.

The Intelligence Paradox Why the Intelligent Choice Isnt ...

Satoshi uses his intelligence paradox (and evolutionary psychology) to show what atheists, liberals, homosexuals, instrumental music lovers, night owls and others are more intelligent. He goes on to explain though that intelligence is NOT the same thing as smart and that in fact, more intelligent people are more likely to do dumb things.

The Intelligence Paradox Why Intelligent The Fermi paradox is a conflict between the argument that scale and probability seem to favor intelligent life being common in the universe, and the total lack of evidence of intelligent life having

The Intelligence Paradox Why Intelligent Choice Isnt ...

General intelligence is very important in modern life because our environment is almost entirely evolutionarily novel. Most of the problems that we have to solve today—how to excel in school, how to find jobs, how to do virtually everything on a computer—are evolutionarily novel.

Quick study: Satoshi Kanazawa on intelligence The ...

The second aspect of the Fermi paradox is the argument of probability: given intelligent life's ability to overcome scarcity, and its tendency to colonize new habitats, it seems possible that at least some civilizations would be technologically advanced, seek out new resources in space, and colonize their own star system and, subsequently,...
