Las ideas fundamentales del transhumanismo fueron planteadas por primera vez en 1923 por el genetista británico J. B. S. Haldane en su ensayo Dédalo e Ícaro: La ciencia y el futuro, que predijo que los grandes beneficios provendrían de las aplicaciones de las ciencias avanzadas a la biología humana. En particular, él estaba interesado en el desarrollo de la ciencia de la Eugenesia, en la ...

Cognitive liberty, or the "right to mental self-determination", is the freedom of an individual to control his or her own mental processes, cognition, and consciousness. It has been argued to be both an extension of, and the principle underlying, the right to freedom of thought. Though a relatively recently defined concept, many theorists see cognitive liberty as being of increasing importance ...

Panarchy (from pan and archy), coined by Paul Emile de Puydt in 1860, is a form of governance that would encompass all others. The Oxford English Dictionary lists the noun as "chiefly poetic" with the meaning "a universal realm," citing an 1848 attestation by Philip James Bailey, "the starry panarchy of space". The adjective panarchic "all-ruling" has earlier attestations.

One cannot live without developing opinions about the nature of reality, so every well-defined culture and faith naturally introduces its members to a way of seeing the world. While we can easily name many different worldviews, perhaps the five most important ones are: 1) Chinese, 2) Indian, 3) Muslim, 4) secular humanist, and 5) Christian.

Seeing as this is an English 101 course, the second aim will be to develop skills necessary for students to be effective readers and writers. The cultivation of these abilities will not only aid students in their exploration of violence in literature, but in any other analytical work they may need to do in the future.
