### **Change your screen resolution - Windows Help**

Since then, I have raised the resolution as high as it will go, but 1600x1200 is very blurry on my 1920x1200 monitor. Windows 7 insists my monitor is non-PNP which is ridiculous, it is a high end monitor, a Viewsonic VP2330wb. I have gone into Screen Resolution->Advanced and Windows 7 simply refuses to pick up the monitor.

### **Windows 7 x64 now stuck on low resolution non-PNP monitor.**

I have only just got Windows 8 and I found that when I tried to open any of the apps on the start page it said that my screen resolution was too small and the app's couldn't open. It said I had to have at least 1024x768 but my computer only goes up to 1024x600.

### **My screen resolution is "too small".**

If the Windows desktop is the correct size but the icons on the desktop are too large or too small, use the following steps to resize the icons. Minimize any open windows. Press and hold the Ctrl key on the keyboard. Use the mouse wheel to scroll up or down to decrease or increase the size of the icons on the desktop.
